UI/UX Interview task

Dear Candidate!

Greetings from Cloudrevel Innovations.

As discussed in the interview, your task is followed below. Please find a task as a part of our interview process. Also attaching some instructions to help you to complete this task.
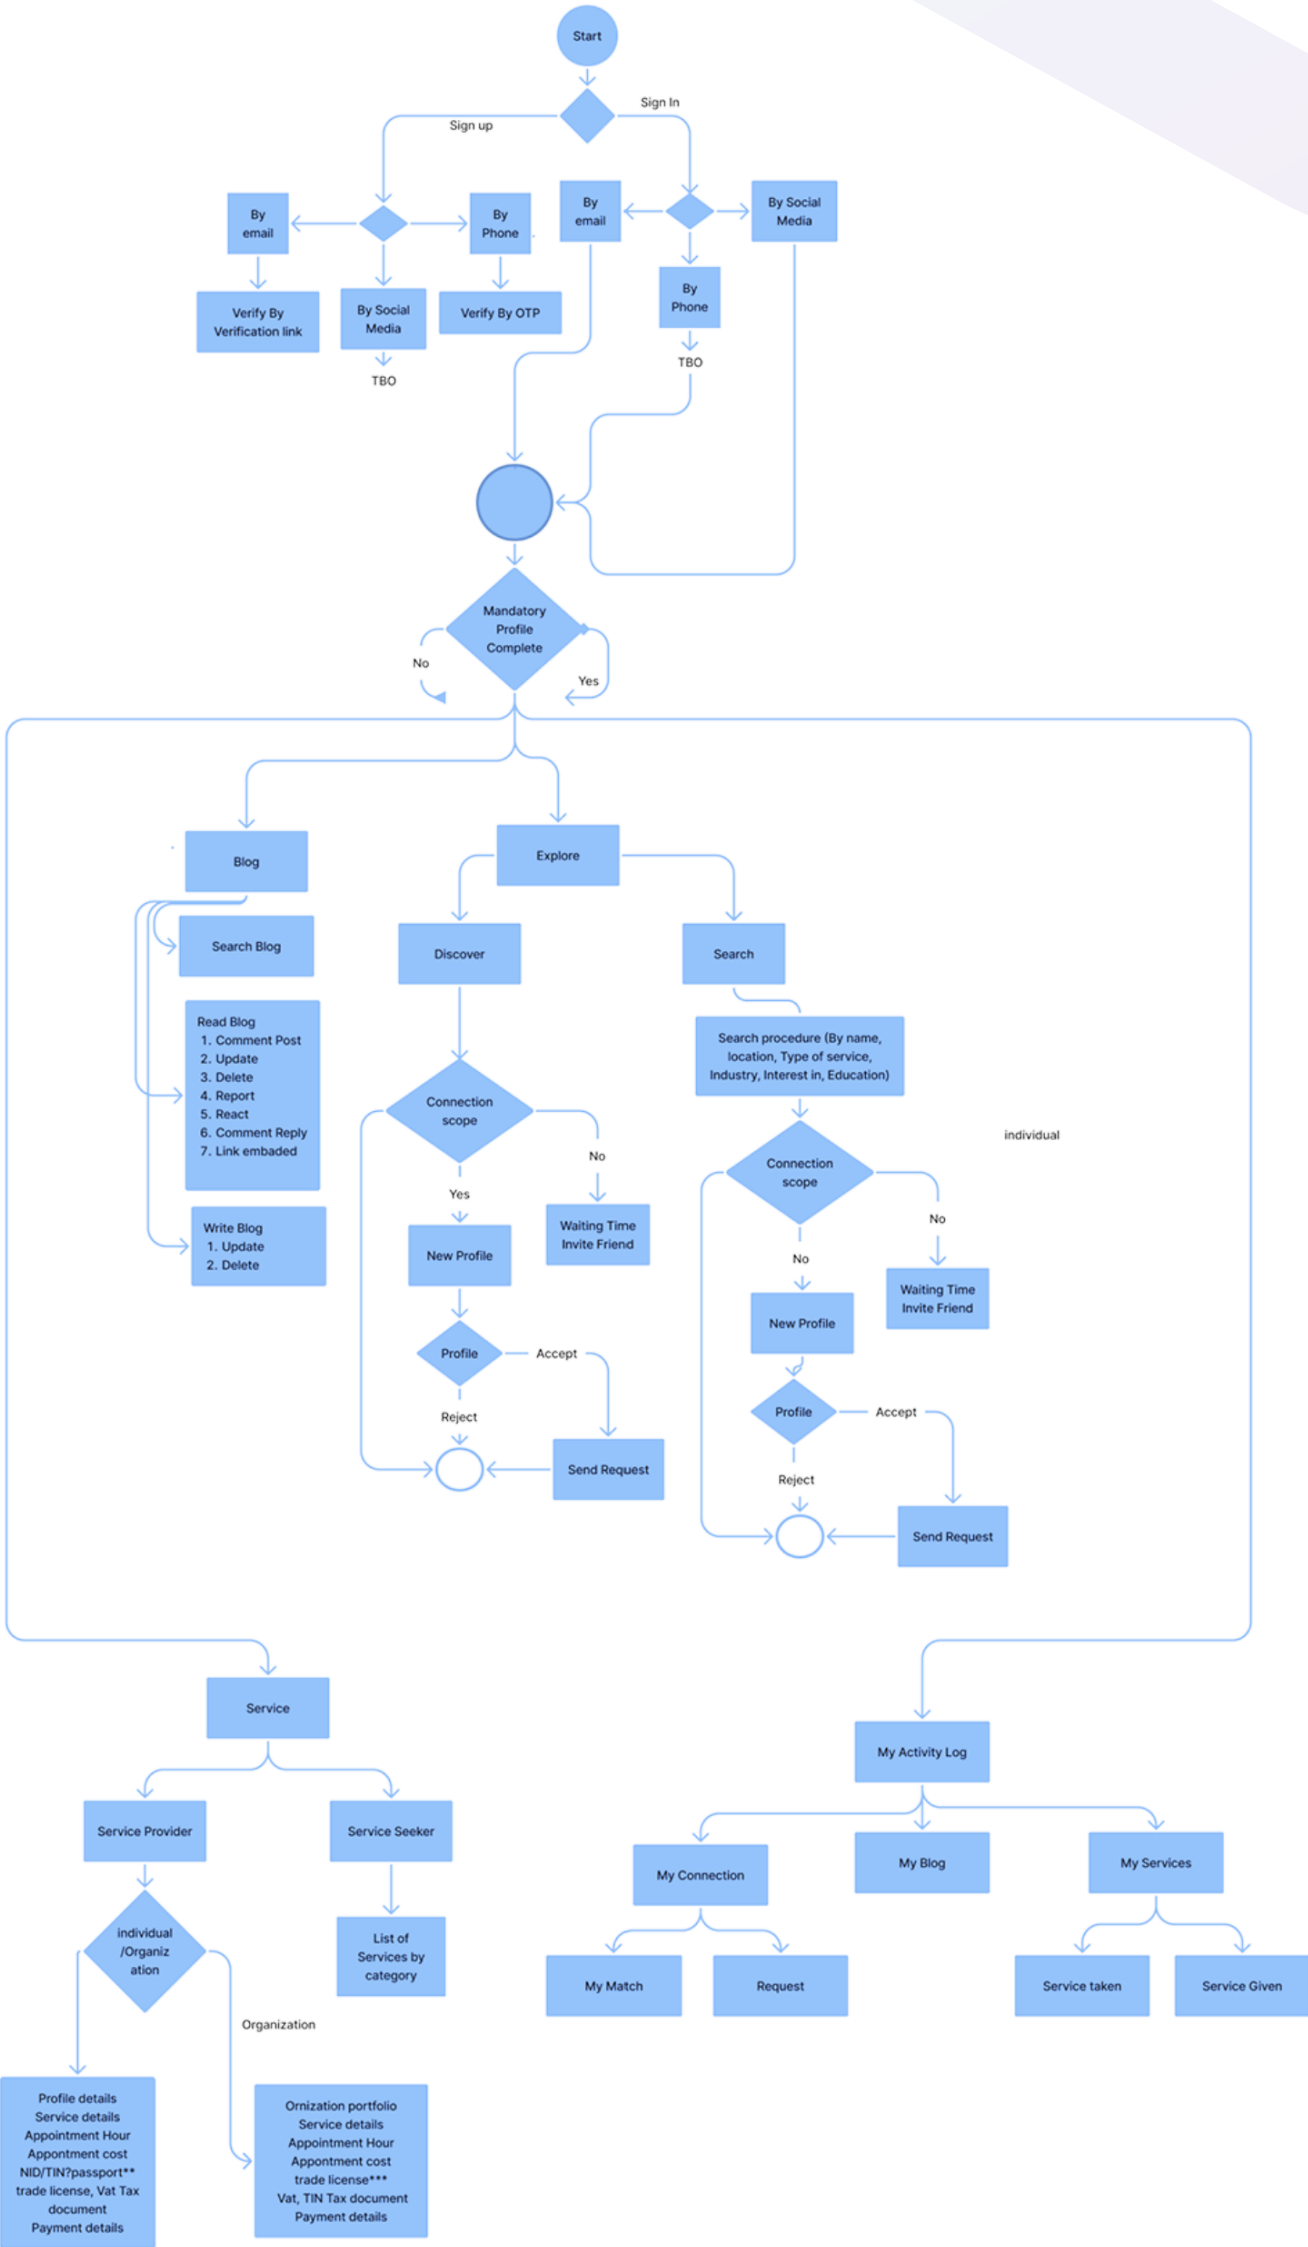

Assignment:

Brief: This is the user flow of a match-making app.

Task: Design a wireframe for the attached user flow.

- Low fidelity
- As many screens are required to show the provided user flow.
- No, only wireframes will be enough.
- Services can be anything related to the app and its users.

We expect you to send the completed task with in 48 hours.
Also, questions/ doubts about the task are expected to be sent in the same mail.
All the best for the task.

User flow

All The best :)
